ABOUT US

The Islamic Chamber Holding Company (ICCIA Holding) was established by the Islamic Chamber of Commerce and Development (ICCD) in November 2022 in the United Kingdom. the company's structure is designed to support its role as the ICCD's investment arm, aligned with its broader strategic goals.

The primary mission of ICCIA Holding is to implement sustainable investment projects that achieve both financial and social returns. It seeks to meet the needs of middle-class populations while adhering to Environmental, Social, and Governance (ESG) principles and advancing the United Nations Sustainable Development Goals (SDGs). This approach is neither purely charitable nor entirely profit-driven, striking a balance between generating value for investors and contributing to social progress.

INTRODUCTION

As the digital economy continues to expand, technology-driven solutions are transforming industries and creating new investment opportunities. ICCIA Publication - investment serves as a gateway for investors to three high-potential opportunities that align with the growing demand for online education, digital financial services, and e-commerce.

E-COMMERCE PLATFORM

A digital commerce solution that enables businesses to increase customer engagement, improve sales performance, and streamline operations through interactive technology.

UMMAH FUND

A Shariah-compliant digital savings and investment platform designed to enhance financial inclusion by offering secure, life goal-based savings solutions for Hajj, Umrah, retirement, and education.

ARABIATY PLATFORM

A comprehensive Arabic language learning platform that leverages digital tools and interactive methodologies to make Arabic education more accessible and effective for non-Arabic speakers.

Each of these projects offers a strong value proposition, financial viability, and scalability, making them attractive investment opportunities.

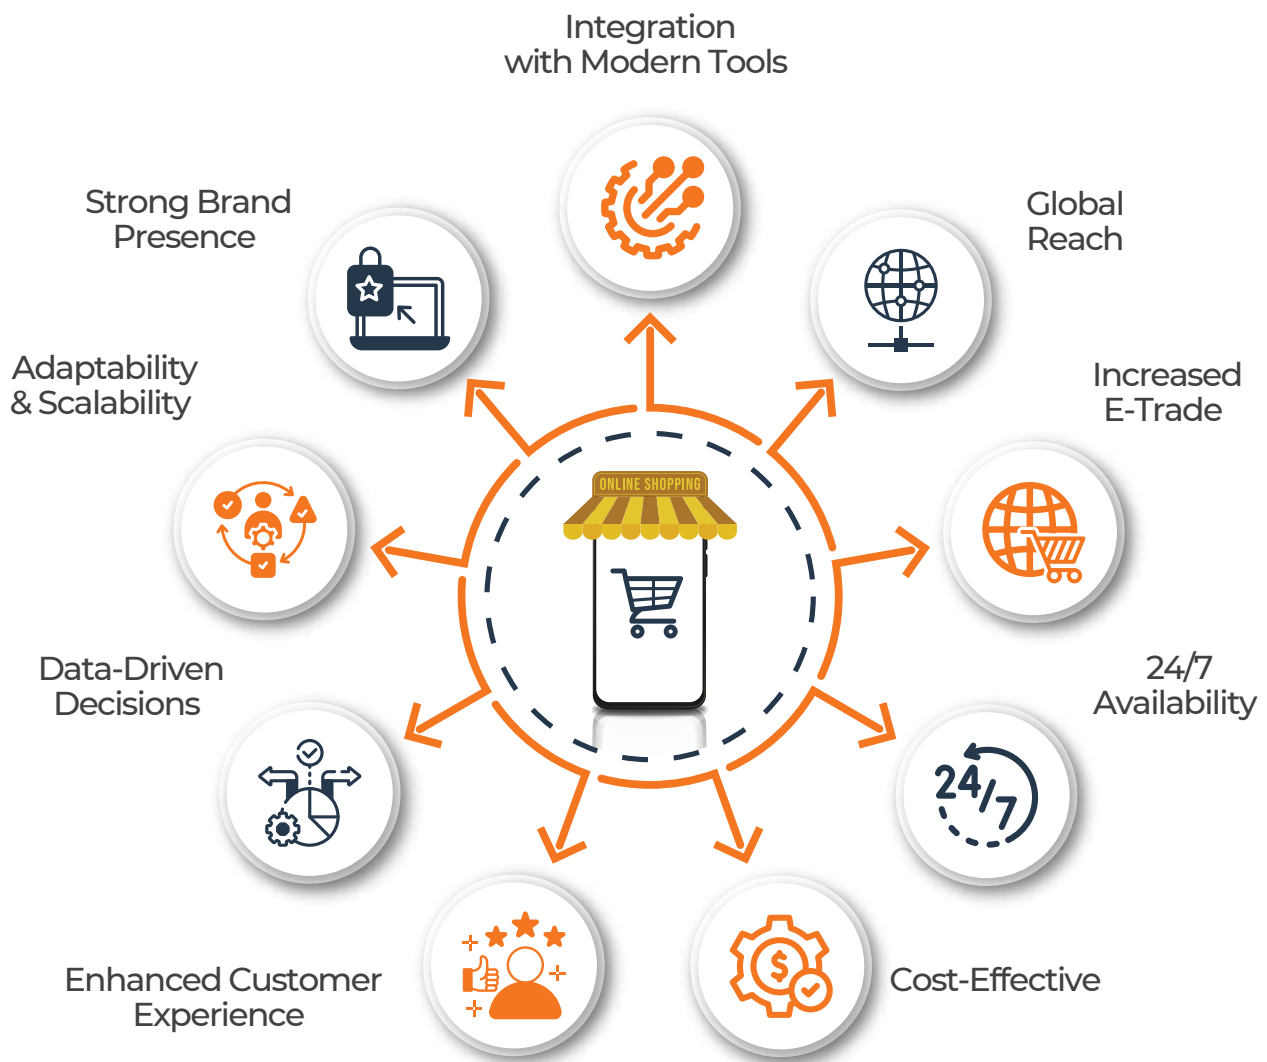

By showcasing these ventures, ICCIA aims to connect investors with initiatives that contribute to digital transformation and economic development.

E-COMMERCE PLATFORM

Simplifying Commerce,
Amplifying Growth!

and Growth**

VALUE PREPOSITION

1

QUICK START AND EASY SETUP

ICCIA-holding ready-made platform eliminates the need for very long development processes, allowing customers to launch their e-commerce business in no time.

2

FULLY CUSTOMIZABLE TO YOUR NEEDS

ICCIA-holding ready-made platform eliminates the need for very long development processes, allowing customers to launch their e-commerce business in no time.

3

TIME AND EFFORT SAVINGS

Avoid the hassle of finding developers, designing from scratch, and managing complex timelines. With seamless customization to match your brand identity and integrations for payment gateway and shipping method, your e-business can be fully prepared for launch within just one month.

4

POWERED BY LARAVEL

The platform is built on Laravel, a robust and secure coding framework that ensures reliability, scalability, and a solid foundation for business growth.

5

EXPERT MAINTENANCE SUPPORT

We offer three months of free maintenance, ensuring smooth operation and addressing any technical issues during the critical early stages of your business.

6

COST-EFFECTIVE SOLUTION

By using pre-developed platform, you save on the high costs of time consuming typically associated with custom development, without compromising on quality or functionality.
